Information is subject to change without notice. Northern Telecom reserves the right to make changes in design or components as progress in engineering and manufacturing may warrant. This equipment has been tested and found to comply with the limits for a Class A digital device pursuant to Part 15 of the FCC rules, and the radio interference regulations of Industry Canada. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses and can radiate radio frequency energy, and if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at their own expense. Revision history

October 1997

Issue 5.00 released for Generic X11 Release 23.

August 1996

Issue 4.00 released for Generic X11 Release 22.0x.

December 1995

Issue 3.00 released as Standard for Generic X11 Release 21.1x.

Note: No issue 2.00 was released.

December 1994

Issue 1.00 released as Standard for Generic X11 Release 20.

July 1994

Standard version issued for Generic X11 Release 20.

July 1993

Standard version issued.

May 1993

Soak version issued.

February 1993

Preliminary version issued for formal document review.
